

Kehinde Omotayo

I live in Croydon. I decided to volunteer as a governor at CACFO Education Centre because I believe in empowering children and young people to be the best they can be in life. I also believe in good governance values, positive and inspirational leadership and accountability, and want to contribute to the development of good educational standards in my local community.

I have supported and worked with young people in developing skills such as careers knowledge and CV writing skills to enable them to apply for jobs effectively.

My volunteering activities include volunteering with Tower Hamlets Education Business Partnership (<https://thebp.org/>) at the Head to Head Practice Interview at Stepney Green Maths, Computing & Science College in December 2016, attended by over 50 year 11 students. I also supported and worked with over 100 young people in year 10 (14/15 year olds) at the Getting Ahead Employability Skills Conference at Sir John Cass's Foundation and Redcoat CE School in November 2016, and at The Beacon School (Surrey) Practice Interview event in July 2016.

I have a BSC in Computer Science (University Of Ilorin, Nigeria) and a Masters degree in Business Administration (University Of Lagos, Nigeria)
