## **1. Introduction**

CACFO UK Education Centre has a legal duty under section 175 of the Education Act 2002 to safeguard and promote the welfare of pupils by creating and maintaining a safe learning environment.

In this regard, all CACFO UK Education staff have a duty to keep children and young people safe and protect them from harm. Staff should ensure that they do not put themselves in situations in which allegations of abuse or inappropriate behaviour could be made.

The public are also entitled to expect the highest standards of conduct from school staff, governors and volunteers and to have trust and confidence in their integrity.

All adults working at CACFO UK Education Centre must therefore act with the utmost good faith with regard to the business of the school and not do anything which may adversely affect its reputation.

The following code has been drawn up with the view to reducing the risk of staff being accused of improper or unprofessional conduct in all aspects of their work. It aims to help staff work safely and professionally and clarify what behaviour constitutes safe practice and what is unacceptable and or/illegal.

The Code refers closely to the IRSC Guidance for Safe Working Practice for the Protection of Children and Staff in Education settings and has been agreed following consultation with the recognised trade unions.

## **2. Scope**

The Code applies to all adults working in schools whatever their position, roles or responsibilities and is therefore aimed at all school-based staff and volunteers.

The Code is predominantly geared towards safe working practices for the protection of children and in this connection should be read in conjunction with the Child Protection Policy. However, the Code also encompasses other general aspects of conduct expected within CACFO.

The Code cannot cover every eventuality. Its purpose is to show the standard expected of employees, but it does not include the general requirements of the law. In respect of teachers specifically, the Code supplements the General Teaching Council (GTC) Code of Conduct and Practice for Registered Teachers.

The Code is recommended to the school Governing Body for adoption.

### **3. General obligations**

Staff should understand the responsibilities that are an intrinsic part of their employment or role. They should make a professional judgement about their actions and behaviour and seek to avoid conduct, which would lead any reasonable person to question their motivation or intentions.

If there is an incident where staff feels there may be a concern, they should discuss the circumstances that informed their action, or their proposed action with a senior colleague, to help ensure that the safest practices are employed and the risk of actions being misinterpreted reduced.

Records should be made of any incidents and decisions made or further actions agreed, with their justifications, in accordance with school policy.

All staff should know the designated person for child protection, be familiar with local child protection arrangements and understand their responsibilities to safeguard and protect children and young people.

Staff should understand their responsibility to voice any general concerns that they might have about practice within the school, in accordance to the Croydon Whistle Blowing Policy.

Staff should be aware of and comply with CACFO financial and administrative regulations and any other procedure manuals which the school has.

Unlawful, unsafe or inappropriate behaviour may result in disciplinary action being taken.

### **4. Good practice Guidelines**

The following Code guidelines set out specific areas of conduct and behaviour that constitute expected and safe practice.

If staff are in doubt about any aspect of this guidance or need to seek further clarification about a particular situation in the absence of a specific guidance, they are advised to speak a senior manager or the chair of the sub-committee.

#### **4.1. Propriety and Behaviour**

All adults working with children and young people are in a position of trust in relation to the individuals in their care. Staff members are expected to adopt high standard of personal integrity and conduct and behave in such a way that does not compromise their position both within and outside of CACFO.

The General Teaching Council for England's Statement of Professional Values and Practice also sets out the minimum professional standards for the regulation of the teaching profession and recognises the professionalism involves using judgement over appropriate standards of personal behaviour.

Staff should not:

- Behave in a manner, which would lead any reasonable person to question their suitability to work with children or act as a role model;
- Use their power to intimidate, threaten, coerce or undermine pupils;
- Make (or encourage others to make) unprofessional personal comments which scapegoat, demean or humiliate other individuals or might be interpreted as such.

#### **4.2. Confidentiality and information disclosure**

Staff should not use any information obtained in the course of their duties to the detriment of CACFO or for personal gain or benefit or pass this information on to others who might use it in such a way.

Staff must also take all reasonable steps to ensure that the loss, destruction, inaccuracy or disclosure of information does not occur as a result of their actions, including information relating to school business and pupil data.

There are some circumstances in which staff may be expected to share information about a child, for example, when the child protection issues arise. In such cases staff has a duty to pass information on without delay in line with local procedures. If staff is in any doubt about whether to share information or keep it confidential they should seek guidance from a senior manager or person with designated child protection responsibilities

All staff:

- should not use their position to gain access to information for their own advantage or to intimidate, humiliate or embarrass a child;
- are expected to treat any information they receive about children and young people in a discreet and confidential manner;
- need to be cautious when passing on information to others about a child/young person and if in any doubt about sharing information, seek advice of a senior member of staff, or those with designated child protection responsibilities.

### **4.3 Equality issues**

All staff should adhere to CACFO Equal opportunities Policy in addition to the requirements of the law.

All staff should:

- not discriminate in recruitment and employment practices, nor in the delivery of service
- also ensure that in their dealings with parents and other members of the public, they ensure the provision of an efficient and impartial delivery to all individuals.

### **4.4 Employment matters**

All staff involved in appointments and/or tendering process should ensure that these are made on the basis of merit.

- Staff should not be involved in an appointment or decisions relating to discipline, promotion or pay adjustments for any individual who is a relative or with whom they are in close personal relationship;
- All relationships of a business or private nature with external contractors, or potential contractors should be made known to the Headteacher.

It is important that staff do not put themselves in a position where their duty to CACFO and their private interests conflict.

- Staff should not allow their own personal or political opinions to interfere with their work and the provision of a balanced and professional service, ensuring that they work to the professional standard required.

### **4.6 Other employment/private work**

Any external work that staff undertakes must not bring CACFO into disrepute or conflict with the school's interest.

Any copyright created by a member of staff during their employment with CACFO becomes the property of the school.

- Staff should not set up a business or accept employment with a business that is engaged in work, which is in direct competition with CACFO.
- Private work should not be undertaken in the school's time, or using the school's premises or equipment, without prior approval of the Headteacher.

Staff should ensure that they are dressed decently, safely and appropriately for the tasks that they undertake and that through their appearance, they promote a positive and professional image.

Where dress codes exist in schools these should not discriminate in any way.

#### **4.8 Financial inducements, gifts, hospitality and sponsorship**

Staff should ensure that they use public funds entrusted to them in a responsible and lawful manner and that they do not give or receive any gift, loan, fee, reward or advantage, which might be misinterpreted.

Although staff should not give or receive gifts from pupils or parents on a regular basis or of a significant value, it is acceptable however for staff to receive small tokens of appreciation, such as at Christmas time.

- Staff should not seek or receive preferential rates for themselves by virtue of their dealings on behalf of the school;
- Staff should ensure that gifts are declared if they are received
- Staff should generally only give gifts to an individual young person as part of an agreed reward system;
- Where staff do give gifts, they should ensure that they are of insignificant value and given to all children equally

#### **4.10 Publication of Books/ Articles**

If staff wants to publish books, articles, letters, dissertations etc. that they have written in connection with their duties and in which they describe themselves as holding an appointment with the school they must consult the headteacher.

- Staff should speak to the Headteacher if they wish to publish books, articles, letters, dissertations etc. which have been written in connection with their duties and their role within CACFO.

#### **4.11 Infatuation**

In cases where a young person develops an infatuation, there is a high risk of words or actions being interpreted and for allegations to be made against staff.

- Staff should report to a senior colleague any clear/apparent indications (whether they are verbal, written or physical), that suggest a pupil may be infatuated with them and respond sensitively to such situations in order to maintain the dignity of all parties.

#### **4.12 Social contact**

Staff should not seek to establish contact with pupils to secure or strengthen a friendship. This includes giving any personal details to a pupil such as a home/mobile phone number, home or email address. Only in exceptional circumstances can this be with the prior approval of a senior member of staff.

- Do not give out personal details such as home/ mobile numbers, home address or e-mail address to pupils.
- Staff should always approve any planned social contact with pupils with senior colleagues, for example when it is part of a reward scheme or pastoral care programme;
- Staff should advise senior management of any regular social contact they have with a pupil, where it is apparent that it may give rise to a concern

#### **4.13 Physical contact**

It is unrealistic to suggest that teachers should never touch pupils. There are occasions when it is entirely appropriate and proper for staff to have physical contact with pupils, such as when a distressed pupil needs comfort and reassurance or as an integral part of some lessons such as PE and music.

However, innocent actions and appropriate physical contact can often be misconstrued and it is therefore crucial that staff only initiate physical contact for the minimum time necessary and in ways appropriate to their own role and the needs of the child.

Staff should use their professional judgement at all times. Where feasible, staff should seek the child's permission before initiating contact. Where a member of staff thinks that an incident could have been misinterpreted it should be reported to the headteacher.

Any formally agreed plan for children with SEN or physical disabilities should be understood and agreed by all concerned and the staff should be provided with relevant information about vulnerable pupils in their care where it is relevant for this to be provided in order for staff to be able to undertake tasks appropriately.

Extra caution may also be required where it is known that a child has suffered previous abuse or neglect. Many such children are often needy and seek out inappropriate contact, thereby leading staff to be vulnerable to allegations of abuse.

In this regard, staff should:

- Be aware that even well intentional physical contact may be misconstrued by the child, an observer or by anyone to whom this action is described;
- Never touch a child in a way which may be considered indecent;
- Always explain to a pupil the reason why contact is necessary and what form that contact will take;
- Look at alternatives, where it is anticipated that a pupil might misinterpret contact and consider involving another member of staff, or a less vulnerable pupil in demonstration;
- Never indulge in horseplay, tickling or fun fights;
- Always tell a colleague when and how they offered comfort to a distressed child and record any situations, where they think they may give rise to concern;
- Adhere to the school's physical intervention policy and be acquainted with DfES Guidance in respect of physical contact with pupils and meeting the medical needs of children and young people in school.

#### **4.14 Showers and Changing**

Children are entitled to respect and privacy when changing clothes or taking a shower.

However, there does need to be an appropriate level of supervision to safeguard young people and satisfy health and safety considerations. Any supervision must therefore be appropriate to the needs and age of the young people concerned.

- Staff should avoid any physical contact when children are in a state of undress or any visually intrusive behaviour where there are changing rooms;
- Staff should announce their intention of entering a changing room and avoid remaining in the room unless pupil needs require it;
- Staff should not change in the same place as or shower with children

Corporal punishment is unlawful in all schools physical force should never be used as a form of punishment; to do so is likely to constitute a criminal offence.

However in some circumstances, staff in schools has the right to use physical intervention / reasonable force for the shortest period necessary to control or restrain pupils. The Education and Inspections Act 2006 provides the legal power for school staff to use reasonable force to prevent pupils from committing a crime or causing injury, damage or disruption.

- Staff should try to defuse situations before they escalate;
- Staff should keep parents informed of any sanctions;
- Staff should adhere to CACFO policies on Behaviour Management;
- Where it is identified that staff are likely to have to restrain on a regular basis they should have received appropriate training.

#### **4.15 Sexual contact with children and curriculum**

It is a criminal offence for any adult in a position of trust to engage in any form of sexual activity with a young person under 18, even with their consent (Sexual Offences Act 2003). This also includes non-contact activities such as causing children to engage in or watch sexual activity.

There may be occasions when, as part of the curriculum, a teacher has to raise subject matter that is sexually explicit. In such situations, any lesson plan should highlight the areas of risk and sensitivity. Staff should respond to questions with careful judgement and avoid entering into inappropriate or offensive discussions about sexual activity.

In this regard, staff should not;

- Use their status and standing to form or promote relationships with children, which are of a sexual nature;
- Pursue sexual relationships with children and young people either in or out of school;
- Enter in or encourage inappropriate or offensive discussion about sexual activity;
- Make sexual remarks to a pupil (including email, text messages, phone or letter) or use any communication which could be interpreted as sexually suggestive or provocative;
- Discuss their own sexual relationships with, or in the presence of pupils;
- Discuss a pupil's sexual relationships in inappropriate settings or contexts;
- Confer special attention and favour upon a child which might be misconstrued as being part of a 'grooming' process.

#### **4.16 One to one situations and overnight supervision**

When staff works regularly on an individual basis with children, they are generally more vulnerable to allegations.

To avoid such situations arising, meetings should, wherever possible, be arranged so as to staff are visible and /or audible and not in secluded areas of the school.

Staff should not arrange to meet a pupil away from school premises without good reason, but if it is necessary, only with the expressed approval of parents and a senior member of staff.

Staff should:

- Ensure there is visual access and /or an open door in one to one situations;
- Inform other staff of the meeting beforehand, assessing the need to have them present or close by;
- Avoid the use of 'engaged' or equivalent signs wherever possible, as they may create an opportunity for secrecy or the interpretation of secrecy;
- Always report to a senior colleague any situation which gives rise to complaint, disagreement or misunderstanding or where a child becomes distressed or angry.

## 4.17 Transporting children

In such cases where children need to be transported between different locations, a designated member of staff should be appointed to plan and provide oversight of all arrangements.

Where practicable, an adult additional to the driver should act as an escort and all arrangements agreed with relevant parties in advance.

All staff:

- Should avoid using private vehicles wherever possible;
- Must ensure that they have the appropriate insurance (for business use) where they have to use their private vehicle;
- Should ensure that they are not alone with a child for the minimum time possible;
- Should be aware that the safety and the welfare of the child is their responsibility until this is safely passed over to a parent/carer
- Should report the nature of the journey, the route and expected time of arrival in accordance with agreed procedures;
- Should ensure that their behaviour and all arrangements ensure vehicle, passenger and driver safety, taking into account any specific needs that the child may have.

Staff should always take care to have another adult present during out of school activities, unless otherwise agreed with senior staff. Health and safety requirements should be strictly adhered to.

Staff should ensure that they display professional behaviour during activities that take place off school site and ensure that their behaviour cannot be interpreted as seeking to establish an inappropriate relationship or friendship. Staff should therefore maintain a professional relationship with pupils at all times.

Where out of school activities include overnight stay, particular consideration should be given to sleeping arrangements. If applicable and pupils, staff and parents informed of the arrangements in advance.

In this regard, staff should therefore;

- Undertake risk assessments;
- Have parental consent to the activity;
- Ensure that their behaviour remains professional at all times.

## 4.18 First aid and administration of medication

In cases where first aid or medication needs to be administered, all staff should adhere to the CACFO Health and Safety policy.

A health care plan should be drawn up in circumstances where the child needs to take regular medication and any such agreement between the child, parents/carers and the school must be negotiated, agreed and recorded

Where possible, children should be encouraged to administer the medication themselves, with the permission of parents.

Staff should:

- Make other staff aware of the tasks being undertaken;
- Explain to the child what is happening.

Many school activities involve recording images, but the use of such images needs careful consideration and handling. In particular, children who may have been abused in this way may feel threatened by the use of photography and filming.

The use of images of children for publicity purposes will also require the appropriate consent of the individual concerned and their legal guardians.

Staff should therefore:

- Be clear about the purpose of the activity and about what will happen to the photographs when the lesson or activity is concluded;
- Ensure consent is gained from the pupil and their legal guardians where being used for publicity purposes;
- Ensure that a senior member of staff is aware that the photography/image equipment is being used and for what purpose;
- Ensure that all images are available for scrutiny in order to screen for acceptability;
- Be able to justify images of children in their possession;
- Avoid making images in one to one situations.

#### **4.19 Internet use**

Accessing child pornography or indecent images of children on the computer is illegal. Under no circumstances should adults in school access inappropriate images on the internet. The same rule applies to the use of the school's equipment by members of staff at home e.g. use of laptops.

#### **4.20 Social Media**

The widespread availability and use of social media applications bring opportunities to understand, engage, and communicate in new and exciting ways. It is important that we are able to use these technologies and services effectively and flexibly. However, it is also important to ensure that we balance this with our duties to our school, the community, our legal responsibilities and our reputation.

For example, our use of social networking applications has implications for our duty to safeguard children, young people and vulnerable adults.

The policy requirements in this document aim to provide this balance to support innovation whilst providing a framework of good practice. They apply to all members of staff at the school.

The purpose of the policy is to:

- Protect the school from legal risks
- Ensure that the reputation of the school, its staff and governors is protected
- Safeguard all children
- Ensure that any users are able clearly to distinguish where information provided via social media is legitimately representative of the school

#### **Definitions and Scope**

Social networking applications include, but are not limited to: Blogs, Online discussion forums, Collaborative spaces, Media sharing services, 'Microblogging' applications, and online gaming environments. Examples include Twitter, Facebook, Windows Live Messenger, YouTube, Flickr, Xbox Live, Blogger, Tumblr, Last.fm, and comment streams on public websites such as newspaper site.

Many of the principles of this policy also apply to other types of online presence such as virtual worlds.

All members of staff should bear in mind that information they share through social networking applications, even if they are on private spaces, are still subject to copyright, data protection and Freedom of Information legislation, the Safeguarding Vulnerable Groups Act 2006 and other legislation. They must also operate in line with the school's Equalities, Child Protection and ICT Acceptable Use Policies.

Within this policy there is a distinction between use of school-sanctioned social media for professional educational purposes, and personal use of social media

### **Use of Social Media in practice**

#### 1. Personal use of social media

- School staff will not invite, accept or engage in communications with parents or children from the school community in any personal social media whilst in employment at CACFO UK Education centre
- Any communication received from children on any personal social media sites must be reported to the designated person for Child Protection.
- If any member of staff is aware of any inappropriate communications involving any child in any social media, these must immediately be reported as above
- Members of the school staff are strongly advised to set all privacy settings to the highest possible levels on all personal social media accounts
- All email communication between staff and members of the school community on school business must be made from an official school email account
- Staff should not use personal email accounts or mobile phones to make contact with members of the school community on school business, nor should any such contact be accepted, except in circumstances given prior approval by the head teacher.
- Staff are advised to avoid posts or comments that refer to specific, individual matters related to the school and members of its community on any social media accounts
- Staff are also advised to consider the reputation of the school in any posts or comments related to the school on any social media accounts
- Staff should not accept any current pupil of any age or any ex-pupil of the school under the age of 18 as a friend, follower and subscribers or similar on any personal social media account

## **School-sanctioned use of social media**

There are many legitimate uses of social media within the curriculum and to support student learning. There are also many possibilities for using social media to enhance and develop students' learning.

When using social media for educational purposes, the following practices must be observed:

- Staff should set up a distinct and dedicated social media site or account for educational purposes. This should be entirely separate from any personal social media accounts held by that member of staff, and ideally should be linked to an official school email account.
- The URL and identity of the site should be notified to the Headteacher or member of the SLT before access is permitted for students
- The content of any school-sanctioned social media site should be solely professional and should reflect well on the school.
- Staff must not publish photographs of children without the written consent of parents /carers, identify by name any children featured in photographs, or allow personally identifying information to be published on school social media accounts
- Care must be taken that any links to external sites from the account are appropriate and safe
- Any inappropriate comments on or abuse of school-sanctioned social media should immediately be removed and reported to a member of SLT
- Staff should not engage with any direct messaging of students through social media where the message is not public
- All social media accounts created for educational purposes should include a link in the About or Info page to the ICT Acceptable Use Policy on the school website. This will indicate that the account is officially sanctioned by CACFO Education centre.
